For Sale—Seven room house, modern including heat, located at 600 east Third. Inquire at the house for particulars. ISAAC DEATS.

Mary Pickford's role as Stella Maris is one of the most tenderly appealing ones she has assumed for many a day. Stella Maris was an unusually beautiful girl, tenderly loved and surrounded by every luxury wealth could command. Separated from the world and all knowledge of sordidness and sorrow kept from her, she developed an angelic nature and a purity of mind and heart which caused all to love her as an almost supernatural being. Keith theatre Monday and Tuesday.

Childrens Wash Dresses the largest variety ever shown in North Platte at WILCOX DEPT. STORE.

AND THEN CAME THE KAISER'S HORDES OF BABY KILLERS (SCENE FROM THE KAISER "THE BEAST OF BERLIN")

North Platte, Nebraska,

Monday and Tuesday, May 20-21

2,000,000 by End of Year.

A Paris dispatch dated yesterday says the United States has promised to have 1,500,000 fighting men in France by the end of the year. These troops must have their own organization and service, which will mean 2,000,000 including specialists, workers, men in the quartermasters department and others.

From London comes the word that the American preparations on the Western front are amazing in their immensity and plans are being made to accommodate 5,000,000 men.

The house dresses that we are selling at 95c, \$1.45, \$1.65, \$1.95 and up are the best that's shown this season all at before the war prices at THE LEADER MERC. CO.

First Official Communication.

With the American Army in France, May 16—The first American official communique issued since the American troops entered fighting line on a permanent basis was issued last night. It reports increased artillery activity northwest of Toul and in Lorraine, as well as the destruction of three German machines by American aviators.

Twelve Tire Tests. No. 3

This series of twelve tests is designed to take the uncertainty out of tire-buying.

Traction-Surface

A non-skid tread, made up of comparatively small projections, cannot resist wear so well as a tire having a broad, flat traction-surface.

In considering the merits of various non-skids, determine how large a surface comes in actual contact with the road.

To do this, lay a piece of wire screen over one unit of the tread, comparing the number of squares that touch the raised portion

with the number that cover the portion not raised.

In the Michelin Universal, for example, three-quarters of the entire non-skid tread comes in contact with the road, thus forming a broad, flat traction-surface that means extra service.

Yet Michelin Tires are not high priced.

Three-quarters of the Michelin Universal Tread is Traction-Surface.
